YOU HAVE CHALLENGES WE HAVE ANSWERS

If your practice is like most, it's a challenge for you to maintain solid financial performance in this era of shrinking reimbursements and ever-changing regulations and payer rules. And like all providers, you want to practice medicine, not focus on the business of medicine.

MEDIPRO AND LYTEC CAN HELP!

We are 100% committed to your success!

MediPro's mission is to deliver and support a complete solution of integrated medical billing software, practice management (PM) products and electronic health record (EHR) solutions to the healthcare community. We have successfully been doing so since 1995 by recognizing the need for a comprehensive, interactive and cost-effective suite of applications that is customized to address your individual healthcare office. Our goal is to continue setting the highest standard of customer service for healthcare professionals.

MediPro proudly offers McKesson's award-winning Lytec® Practice Management solution, customized to fit the unique needs of your practice. Since 1989, Lytec PM has helped thousands of medical billing and healthcare professionals efficiently operate their practices.

However, Lytec is much more than just practice management. Read on to learn how the Lytec solution suite can help your office improve productivity and enhance patient outcomes.

Lytec practice management system provides an ANSI 5010 and ICD-10 compliant, powerful workflow engine to manage the scheduling, billing and revenue management functions of your practice.

SEAMLESS PRACTICE MANAGEMENT WORKFLOW

From the time a patient is scheduled to the time you get paid for the service you provide, Lytec helps you efficiently manage your practice workflow.

SCHEDULING

- Appointment opportunity reporting
- Schedule, moves or cancels appointments quickly and easily
- Print superbills
- Audit billings back to appointments

FRONT DESK

- Reduce cancellations
- Collect copays and patient balances
- Accept credit and debit card payments
- Process custom superbills

BILLING

- Reduce claims rejection
- Generate claims using customizable rule-based grids
- Add notes to claims
- Lower the cost of sending patient statements

REVENUE MANAGEMENT

- Check for insurance eligibility before service is performed
- Check for errors with pre-claim editing and ANSI validation
- Translates and displays 835 electronic remittance advice (ERA) codes

REPORTING

- Day Sheet
- Transaction Journal
- Practice Analysis
- Summary Reports

CLINICAL COMPONENT

- Avoid Rx penalties
- Qualify for Rx incentives
- Process Rx Refills

“I am really happy with MediPro services overall starting with Lytec. I want to keep that healthy relationship forever and would always recommend you guys to anyone.”

iPad, iPad Mini, iTouch, iPhone

Lytec Mobile supports the following devices:

- iPad 1,2 and Retina (with iOS5 and above)
- iPhone 4 and 5 (with iOS5 and above)
- iPod Touch (with iOS5 and above)
- iPad Mini

**Works on WiFi, 3G and 4G data connections*

Lytec PM Add-On Options

ENHANCE YOUR USER EXPERIENCE

With our comprehensive variety of add-on opportunities, we make it easier for you to simplify your practice's environment and focus on your core business: practicing medicine.

RELAYHEALTH EDI SERVICES

Improve reimbursements by EDI services from RelayHealth. Our Lytec software is tightly integrated with the following RelayHealth services: electronic claims submission, electronic remittance advice and eligibility verification. RelayHealth dramatically speeds your cash flow, reduces your labor costs and is easy to learn and use!

BILLFLASH PATIENT STATEMENTS

Deliver professionally printed statements saving your office time and money every month. Eliminate printing, folding, stuffing, sealing, stamping, mailing and troubleshooting while obtaining easy to understand patient statements.

CAMPAIGN MANAGER

Specifically designed to help medical practices plan, manage and deliver their important communication to patients such as automated patient appointment reminders. Campaign Manager reduces valuable staff time on the phone so employees can concentrate on more important tasks.

iGUARD REMOTE BACKUP

Backing up your patient data and software with iGuard helps prevent the loss of critical computer files. Secure, scheduled backups are performed automatically each night over an existing Internet connection.

X-CHARGE CREDIT CARD PROCESSING

Credit and debit card processing is now seamless and extremely easy to use. Your patients get more payment flexibility and speedy check-in/ check-out while your employees work more efficiently.

QMB CLAIMS PREP

QMB is a fully functional document management system that scans and stores insurance cards, medical records, claims, statements, EOBs, superbills and more.

X-LINK

X-Link is a middleware that provides end users with the capability to exchange data between medical software packages and/or data service providers produced by a diverse array of manufacturers. This product will also eliminate the need to deal with paper charts and records.
